## Happy New Year!

The doctors and staff at Endodontic Associates trust you had a wonderful holiday season. We are looking forward to providing treatment to your patients with endodontic problems. We endeavor to provide the highest level of treatment and offer the latest treatment modalities with the most advanced technology. Last year, we added cone beam capability in both of our offices which permits us to detect endodontic problems that are not evident in two dimensional X-rays.

In 2012, we also welcomed a new endodontist to our practice, David Bird. He is a highly skilled professional and I know your patients will be pleased with his friendly, professional demeanor.

Thank you for all of your referrals and have a happy new year.

Taylor Vargas graduated from ATI's dental assisting program with a 4.0 GPA in 2011, and began her journey as one of EA's chairside assistants shortly afterwards in February of 2012. She has quickly made friends with her co-workers and especially enjoys meeting the variety of patients we see.

### Staff Vitals—Taylor Vargas

Besides her normal chairside duties, Taylor is one of our designated photographers at company events. She was born and raised in Dallas, Texas, but relocated to Oklahoma City when her husband was transferred with his job. She and her husband Alejandro will be celebrating five years together this month. They have a four year old daughter named Amilia who shares a love of cooking with her mommy. Besides spending quality time with her family, one of her favorite past times is watching horror films. When asked about her hobbies, Taylor replied, "Living life is my hobby!" ■
